In all my 81 years of life, I have never known such a twisted mind behind a running mouth as our "president". He seems to thrive on the destruction of our former long-standing American values. The writers of our Constitution and our Bill of Rights must be turning over in their graves at the constant undermining of their sense of Truth, Justice, and the Common Good in the bills he promotes and signs, The latest attack by him and his henchwoman Sibelias against the conception of a child is a stinking crime against humanity! And the very idea of them making all of us support this mania by our tax money is gross injustice! In fact we should all simply refuse to pay any taxes until this stupid law , and all others that support Planned UNparenthood are are rooted out of our country. All logical, reasoning human beings know that any action that kills a conceived human being is an act of homicide BY DEFINITION , and genocide BY SPECIFIC CHOICE AND NUMBERS! So real American government should be taking every penny of tax money from P>U> and giving it to support Life Care Centers that give loving care to pregnant women and their unborn child in difficult pregnancy situations. These days the stench coming out of the White House is of historic proportions! G.L. Noesen, Crookston, Minnesota.
